

Scott Barb Sandy Marc

HISTORY: The Jackson family began the New Hampshire Outdoor Learning Center several years ago to help men, women and children just like you achieve success in the woods and on the waters of New England. In 2014, we were privileged to add Marc Hallee and Sandy Turcotte to our team as the leaders of our Women's Outdoor Learning Center. This is an exciting program designed specifically for women and accommodates all levels of outdoor experience. Our family and team of elite instructors are dedicated to providing you with the best in outdoor education. We spend hundreds of hours every year guiding, hunting, fishing and boating in northern Maine & New Hampshire so we can teach you the latest techniques and offer the most advanced outdoor classes.

What's offered at The New Hampshire Outdoor Learning Center

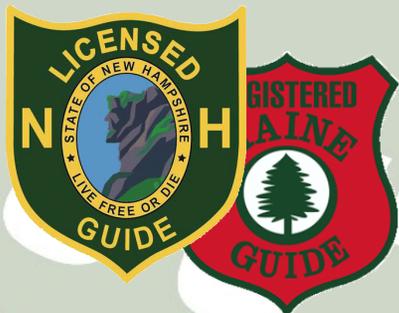

The **CERTIFIED MASTER OUTDOORSMAN** program is considered the "gold standard" in outdoor education and is a total immersion system in hands-on outdoor learning. All of our courses are taught by experienced Registered Maine Guides and Licensed New Hampshire Guides with over 100 years of combined outdoor knowledge. Each workshop consists of classroom presentations, discussion, and curriculum followed by an afternoon of field work. The Learning Center has hundreds of acres of prime woods and waters to ensure you have the best classroom to hone your outdoor skills. There are 22 comprehensive classes. Complete your choice of 18 including a final written exam, proficiency test, and interview with the Board of Certified Master Outdoorsman and you will receive the coveted "Master Outdoorsman" certification and patch. If you have an above average love for the outdoors and are looking for an opportunity to gain an extreme level of knowledge and confidence, then this program is for you!

WOMEN'S OUTDOOR LEARNING CENTER: offers outdoor related programs designed to empower you with the confidence needed to be self-reliant in the great outdoors. The goal is to provide top quality instruction in a fun and friendly learning environment that will encourage women to pursue their outdoor interests and meet other like-minded individuals. Courses accommodate all willing to learn, from the beginner to the seasoned outdoor enthusiast. If you are looking for expert instruction related to hunting, fishing, camping/cooking, orienteering, wilderness first aid, survival and other interests, then the Women's Outdoor Learning Center will guide you to become a true master of the outdoors.

MAINE & NEW HAMPSHIRE LICENSED GUIDE SCHOOLS: Our comprehensive workshops will prepare you for the toughest outdoor tests in the country. This course includes 3 full days of intense education in lost person recovery, map and compass, wilderness first aid, fish and animal biology, canoeing, fly fishing, firearms, and more and is designed to help you put the coveted Guide's patch on your sleeve. Many students take this course to earn extra income using their passion for the outdoors. Others simply want to achieve an industry recognized level of outdoor knowledge. The Maine and NH Guide's licenses are truly a benchmark achievement and you will become an important part of each state's outdoor sporting heritage.
